

## Keys, cards and remote controls

### PROXIMITY KEY 125 KHZ

125 kHz

REF : 1125/50

- Dimensions: 47mmx35mmx4mm
- Certified IP68 - IK08
- Engraved with a 8 digit alphanumeric number
- Slot to avoid number erasure
- Operating Temperature: -10° C to +60°C

The proximity keys are certified IP68 and IK08 (waterproof and high shock resistance). They have a metal eyelet to be placed on a key ring and contain a 8 hexadecimal code which can be not modified. The key uniqueness is guaranteed. The code is written to ease programming and identification.

Possibility of personalization with screen printing or molding of the hull.

The 1125/50 proximity keys are compatible with all FDI 125 Khz readers.
